Attitude and *grace*

A chandelier with a sober and discreet elegance. Devoid of any concessions to decorations, hence capable of resonating both in classic and modern contexts. It combines strength and grace, with coexisting smooth and angular lines, just like Frida Kahlo, to whom it's dedicated. Frida is handcrafted with rigorously blown glass, a feature which grants it with imperfection and beauty.

Composition of *hexagons*

A calm chaos, elegant and composed. A stylistic system with structured tones where the real star is the hexagonal module. Its squared lines recount a functional, aesthetic and geometric storytelling. The name encompasses its most intimate essence: from a starting module it is possible to replicate a myriad of infinite forms, hence Chaos.
